SUBJECT: CLEARANCE TO PROCEED WITH INSTALLATION OF BIRD EXCLUSION
NETTING ON GUARD TOWERS - MBM - 019 - 96

In accordance with the migratory bird protection procedure for the Site, all guard towers within the PIDAS, except Building 901, are cleared for installation of bird exclusion netting as planned. We understand that work is to start the first week of March 1996, and will proceed until completed. Per our conversations today, your project is to contact me when you are ready to remove the swallow's nests from Building 901. I must be present when the nests are removed, in accordance with conditions set forth in the current U. S. Fish and Wildlife Service Nest Removal Permit. Once the nests have been removed from that structure, work at that location may also be completed.

Should you have questions or require further information, please contact me at extension 3560.
